## The department of highway safety and hover vehicles

Omni Corp Building 2473  
downtown Kemo.  
2184 4th Street  
Kemo, Corp Res 1, UCOA

THE DIVISION OF DRIVERS' LICENSES administers examinations to qualify persons to drive on the highways of Kemo. Its primary mission is to promote and maintain the highest possible driving standards on the streets and highways throughout Kemo, holding each driver responsible for his actions in traffic (by use of current, complete and accurate records) and to improve the driving performance of those drivers whose records indicate that they are having problems with their driving. A legitimate secondary mission is to eliminate the very small percentage of extremely poor drivers from the highways after all efforts to improve their driving have failed.

THE DIVISION OF KEMO HIGHWAY PATROL enforces all state laws pertaining to hover vehicles, patrols the state highway system to help ensure the safety of all drivers and implements state traffic safety programs. Each trooper is always willing to render assistance to the hovering public.

THE DIVISION OF MOTOR VEHICLES regulates the sale and distribution of all motor vehicles in Kemo. It administers the sale of license plates through direct levy. If necessary the Division of Motor Vehicles may use force to collect owed debts.

THE DIVISION OF ADMINISTRATIVE SERVICES handles the functions of payroll, personnel, purchasing, data processing, accounting and fiscal operations and maintenance and repair of equipment. The three operating divisions above serve the Administrative Division.

# chapter 1

# definitions

---

**business district:** An area where 50% or more of the land next to the road is used for business.

**certified copy:** A copy which has been marked in some official way to show that it is a true copy of the original document. To get a certified copy of a document you must contact the agency that issued the original document.

**conviction:** A judgment of guilt in a court. In a driver's record, suspended sentences, forfeiting/estreatures of bonds, and pleas of no contest count against the driver just as a conviction does.

**department:** The Department of Highway Safety and Hover Vehicles, Kemo, Corp Res 1, UCOA.

**felony:** A serious crime for which you can be sent to a state prison or receive a death sentence.

**hover vehicle:** A car, truck, bus, moped, motorcycle, or any other vehicle that is self propelled by some mechanical or electrical power source and moves without contact with the ground.

**gangland:** An area where most of the land next to the road is under the control of gangs.

**grease:** To kill or murder. For example "I will grease him." means "I intend to murder him."

**intersection:** Where two streets meet or cross.

**motor vehicle:** A car, truck, bus, moped, motorcycle, or any other vehicle that is self propelled by some mechanical or electrical power source.

**pedestrian:** Any person walking.

**residential district:** An area where most of the land next to the road is used for homes.

# warning

---

Under section 6642,167, (5) Kemo statutes, it is a **FELONY** of the third degree "to use a false or fictitious name."

# learning to drive

---

To be a successful driver all applicants must pass a series of simple tests before being issued a driving permit to operate a hover vehicle on the highways of Kemo.

# your first driving lesson

Now that we are settled down in your vehicle, let us familiarize ourselves with the layout of your vehicle.

**compass:** This handy device always tells you which direction you are facing. For those with an interest the compass is electronic and detects sensors located throughout the city. "Old" compasses no longer work correctly ever since the electromagnetic storm that followed the Pakistan / India nuclear war of 1998.

**radar:** Ground radar that detects the presence of enemy vehicles. Radar does not detect buildings or streets only hover vehicles.

**steering wheel:** Although a highly inefficient form of control many people insist on using a steering wheel to control their hover vehicles despite the fact that many other more efficient control methods are available.

**wayfinder:** This device locks onto a certain target (Location / Person, Area or Car) and will always point towards that place. The name of the target and the distance from the target is given.

**battery power:** Shows how much off-road power you have remaining.

# driving controls

The driving controls for your hover vehicle are very simple indeed. To accelerate, **press Button A**. To brake, pull back. To turn right, push the right key and to turn left, push the left key.

## buttons

---

|                        |  |
|------------------------|--|
| Accelerate .....       | <b>Button A</b>                        |
| Fire Guns .....        | <b>Button B</b>                        |
| Fire Big Weapon.....   | <b>Button C</b>                        |
| Map .....              | <b>Button X</b>                        |
| Select Screen.....     | <b>Button P</b>                        |
| Jump .....             | <b>Up Arrow on<br/>the Control Pad</b> |
| Switch CD tracks ..... | <b>Hold down<br/>Button X</b>          |

General rule:     **A button = yes**  
                      **C button = no**

**Game Tip:** *If the player can deliver passengers to their destination within the allotted time, they will receive "missions" from the Kemo underground, which if successfully completed will provide the player with passwords to move on to the higher levels.*

## views

---

To cycle through the views on the cab, hit the **TOP RIGHT button**.

It is worth remembering that if you have a side arm, then looking out of the side of cab will access the drive by shooting screen.

## the map

---

To access the map, hit the **X button**. Once on the map view, you can change your waypoint for your Wayfinder by using the arrow keys on your pad.

The map screen gives a lot of important information for finding your way around the city. Following your Wayfinder to all of your fares is not a good policy. Consult your map for a quicker way to your destination.

## interpersonal relationships

This section covers picking up fares and dealing with the citizens of Kemo.

**vidcam:** If you pick up a cab fare, your inboard cameras will display the passenger here.

vidcam

fare meter

wayfinder

**fare meter:** After you have picked up a fare, you have a certain amount of time to make your delivery. This is displayed here with the amount of money the fare is worth. The fare will slowly tick down after the time elapses.

**wayfinder:** After picking up a fare, the Wayfinder will automatically direct you to your destination.

## picking up a fare

If you hear someone hail a cab and you see the message "PASSENGER PICKUP" slowly scrolling across the bottom of the screen, then simply bring your vehicle to a stop next to the passenger. The passenger will automatically get on board and the map display will indicate the desired destination or mission. You are then offered the chance to accept or decline the mission.

## troublesome people

Sometimes you have a fare who is obnoxious or you may simply feel that there is not enough money in the job for you. To select **EJECT**, cycle through your options with the **TOP LEFT** button. Then hit **B** to activate.

## chapter 2

## weapons

Life in today's urban society can be stressful and tough on the modern citizen. Fortunately, your vehicle can be upgraded to carry weapons. To purchase weapons simply drive into your nearest weapon shop. After you have purchased your weapons you can select which weapon to fire by the following buttons:

- A button** ..... Fires your hood machine guns and also fires your Uzi if you are looking out of the side window.
- TOP LEFT button** ..... Cycles through your special weapons.
- B button** ..... Fires your special weapons.

## combat

You can fire your hood guns by using the **A button**. The bullet count is right above your steering wheel.

bulletcount

**special weapon:** The display on the top of the screen displays the other weapons (if you have purchased some). You can switch between weapons using the **TOP LEFT button**. The remaining ammo is also displayed. To fire the selected weapon, use the **B button**.

## armor

You **WILL** have to buy armor to survive in Q. You should upgrade as quickly, and as often as you possibly can. Even the lowest level of armor affords good protection. The various levels of armor are as follows.

- STEEL
- REINFORCED STEEL
- PLASTISTEEL

You can also buy **TURBO** boosts that increase your speed tremendously for a short period of time.

special weapon

damage

# chapter 3

# the story

---

**2022** Kemo City is the jewel of the West and the hovercar capital of the world. A prosperous city on the east coast of the United States.

Like any metropolis, Kemo City has a growing crime problem. In Kemo, however, crime has become so widespread, that law enforcement would be both futile and extremely expensive. Talks begin about possible solutions.

**2026** Kemo City's crime problem reaches epidemic proportions. The economy slows to a near halt, while crime and black market trading become the only sources of income for Kemo's impoverished inhabitants.

**2029** Enter Omnicorp. This Mega Corporation has big plans for Kemo, claiming they can clean up the city and its crime problem. The project is code named Q.

**2030** Construction of a 5 meter thick, 10 meter high wall composed of plasticized concrete and steel begins. Inhabitants are told that the wall is merely a "defensive measure", and that passage in and out of Kemo will be freely granted.

**2031** The wall around Kemo nears completion. A few of the lucky inhabitants manage to escape as panic begins to engulf Kemo City.

**2032** June 3, the wall is completed and the only exit has been sealed shut. Project 'Quarantine' is now fully functional and Kemo has become a prison city. Along with isolating the current violent population, Kemo will also serve as a prison for any other violent criminals.

**2043** Omnicorp decides to test 'Hydergine 344', on the current population, a neurodrug reported to eliminate 'criminal thoughts' in patients. Hydergine 344 is introduced into Quarantine's water supply.

**2045** Unknown to the designers of Hydergine 344, Kemo's water supply has an abnormally high bacterial and viral content which reacts with Hydergine 344 forming a psychoreactive virus. The virus causes synaptic breakdown, the main symptoms being violent psychopathic tendencies. About half of the prisoners have become crazed violent killer lunatics intent on killing anyone who is not a crazed violent killer lunatic.

**2047** The virus is spreading.
